Summary

Hello! I'm Muhammad Ahmer Javed, a computer science graduate from Air University Islamabad, currently pursuing my Master's in Computer Science from FAST. I am passionate about software development and have been working as a Junior Software Engineer at Melior ITS.

During my time at Melior ITS, I have gained hands-on experience in various technologies, including React, TypeScript, Rest APIs, Azure Functions, and ASP.NET Core. I have been actively involved in developing solutions following agile methodologies, ensuring efficient project management and timely deliveries.

As a software engineer, I enjoy leveraging my technical skills to solve complex problems and create innovative solutions. I thrive in a collaborative environment, where I can contribute my ideas and work with a diverse team to achieve project objectives.

Apart from my technical expertise, I am also a lifelong learner and continuously seek opportunities to expand my knowledge and skill set. I am committed to staying updated with the latest industry trends and technologies to enhance my professional capabilities.

Outside of work and studies, I enjoy engaging in personal projects to further hone my skills and stay updated with emerging technologies. I am also an advocate for teamwork and open communication, believing that it is essential for the success of any project.

I am open to connecting with fellow professionals, exploring collaboration opportunities, and contributing to meaningful projects. Feel free to connect with me if you have any questions or would like to discuss how we can work together to achieve mutual success.

Let's connect and explore the possibilities!
